Kalinka Optics Warehouse is the largest online distributor of Russian optics in the world. We sell worldwide and own warehouses in Saint Petersburg, Russia and Southport, NC. Take advantage of the over 50 million owners of Russian designed firearms by carrying our scopes, mounts and other accessories.

You will find that once quality Kalinka Optics products are in the hands of prospective buyers, they sell themselves. The amazing combination of quality and price that Russian optics provides ensures that KOW optics will be one of your most profitable lines.

Kalinka wholesales optics from virtually every former Soviet factory. In cooperation with famous Russian and Belorussian manufacturers, we can release you from the most annoying part of work - ordering, customs clearance and warehousing.

As a small firm, we value our commercial relationships and we have the time and ability to give individual attention to each relationship.

Kind Regards,

The Kalinka Optics Team
